present
A CONCERT FOR STUDENTS OF FRENCH
«BRICE KAPEL»

He's from everywhere. Brice Kapel is from elsewhere but also from here. From Togo, where he was born. From Paris, where he arrived in 1970. From the Bosquets projects in Montfermeil, where he grew up. From the United States, too, where he studied and made a high-profile tour in April 2008. Brice Kapel carries around a history that transcends borders. His personal and musical wealth are drawn from the intersections of all of his different parts and a cheerful mixture of world, pop and reggae.
