

A Concert for Students of French

«**Webster**»

In celebration of «**National French Week**», the board of the AATF-RI proudly presents the music of Canadian rapper «**Webster**». Webster, (real name Aly Ndiaye), was born and raised in Québec to a Senegalese father and a Québécoise mother. Webster has been performing since 1990 and releasing albums since 2000. For the past ten years, he has traveled the world to present writing workshops and concerts to adolescent students of French in order to demonstrate the creative ways he uses French in his music.
